COLOR BENEATH THE WAVES

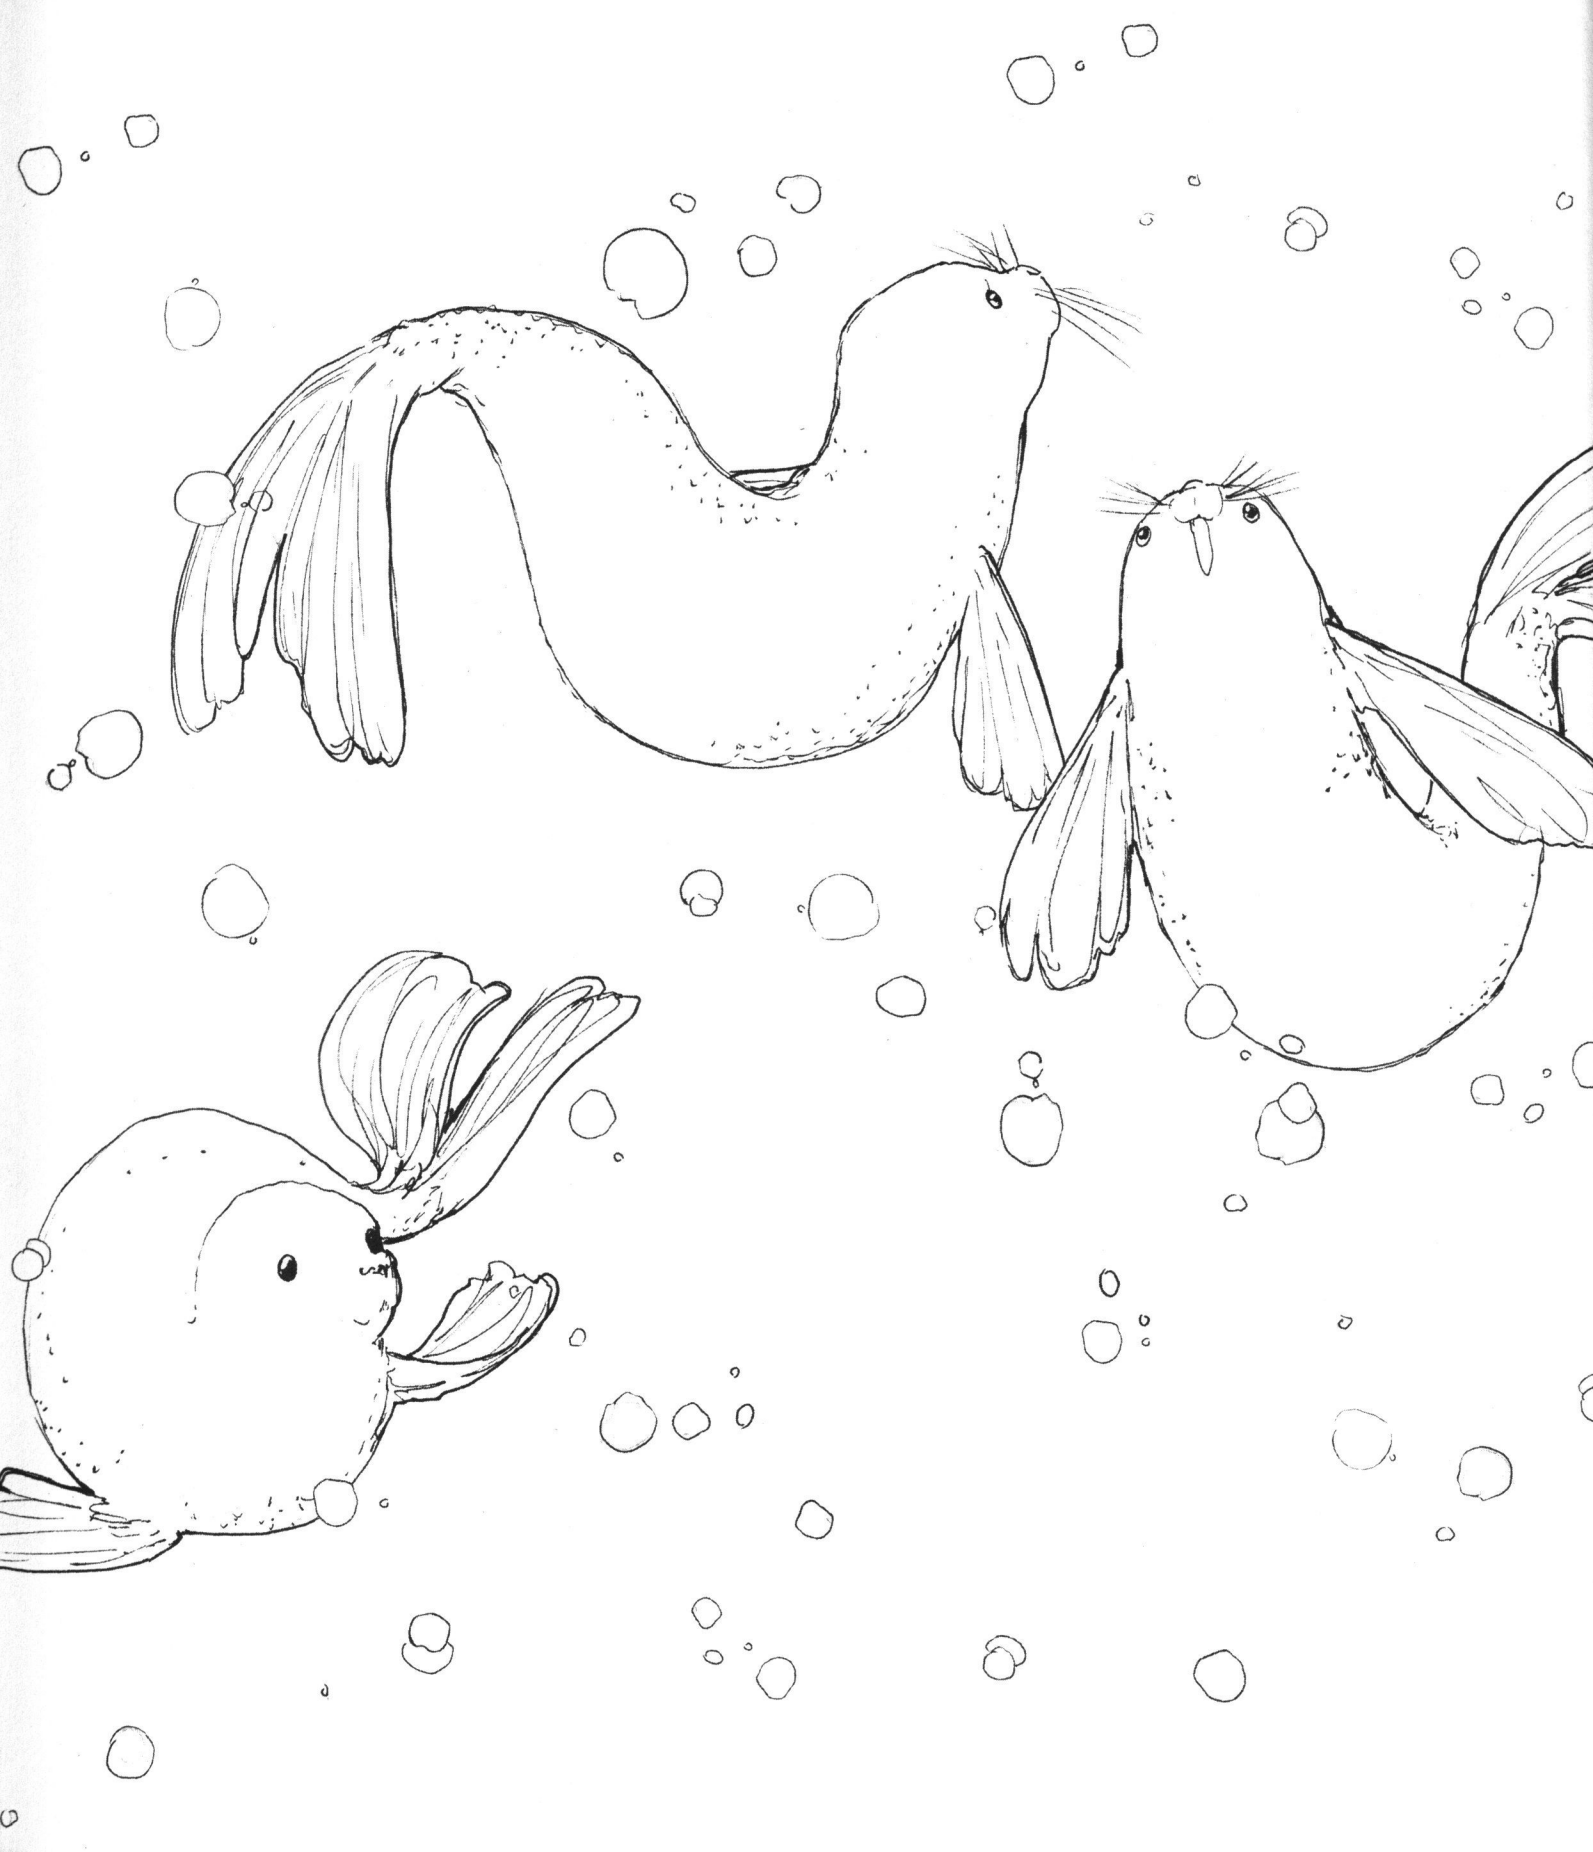

Ever since I first watched Disney's *The Little Mermaid*, I have loved the mystifying and mythological mysteries of the ocean. (Ha ha, say that ten times fast!) *Pop Manga Mermaids and Other Sea Creatures* isn't your ordinary run-of-the-mill coloring book! In the pages ahead, you'll find a twisty surreal art experience featuring mermaids and other ocean-dwelling creatures (both real and imaginary), all drawn in my Pop Surrealism style.

If you don't already know what Pop Surrealism is, think of it as pop culture meets the artwork of Salvador Dalí. The laws of physics don't exist in these pages! Pop Surrealism is an art style where you are free to be crazy, a little bizarre, and definitely magical. That creative freedom is one of my favorite parts of being a Pop Surrealist. I love bending reality in order to create beautiful images that can be whatever I want them to be. Just like mermaids that swim in a sea without anyone stopping them, my art is free from restrictions.

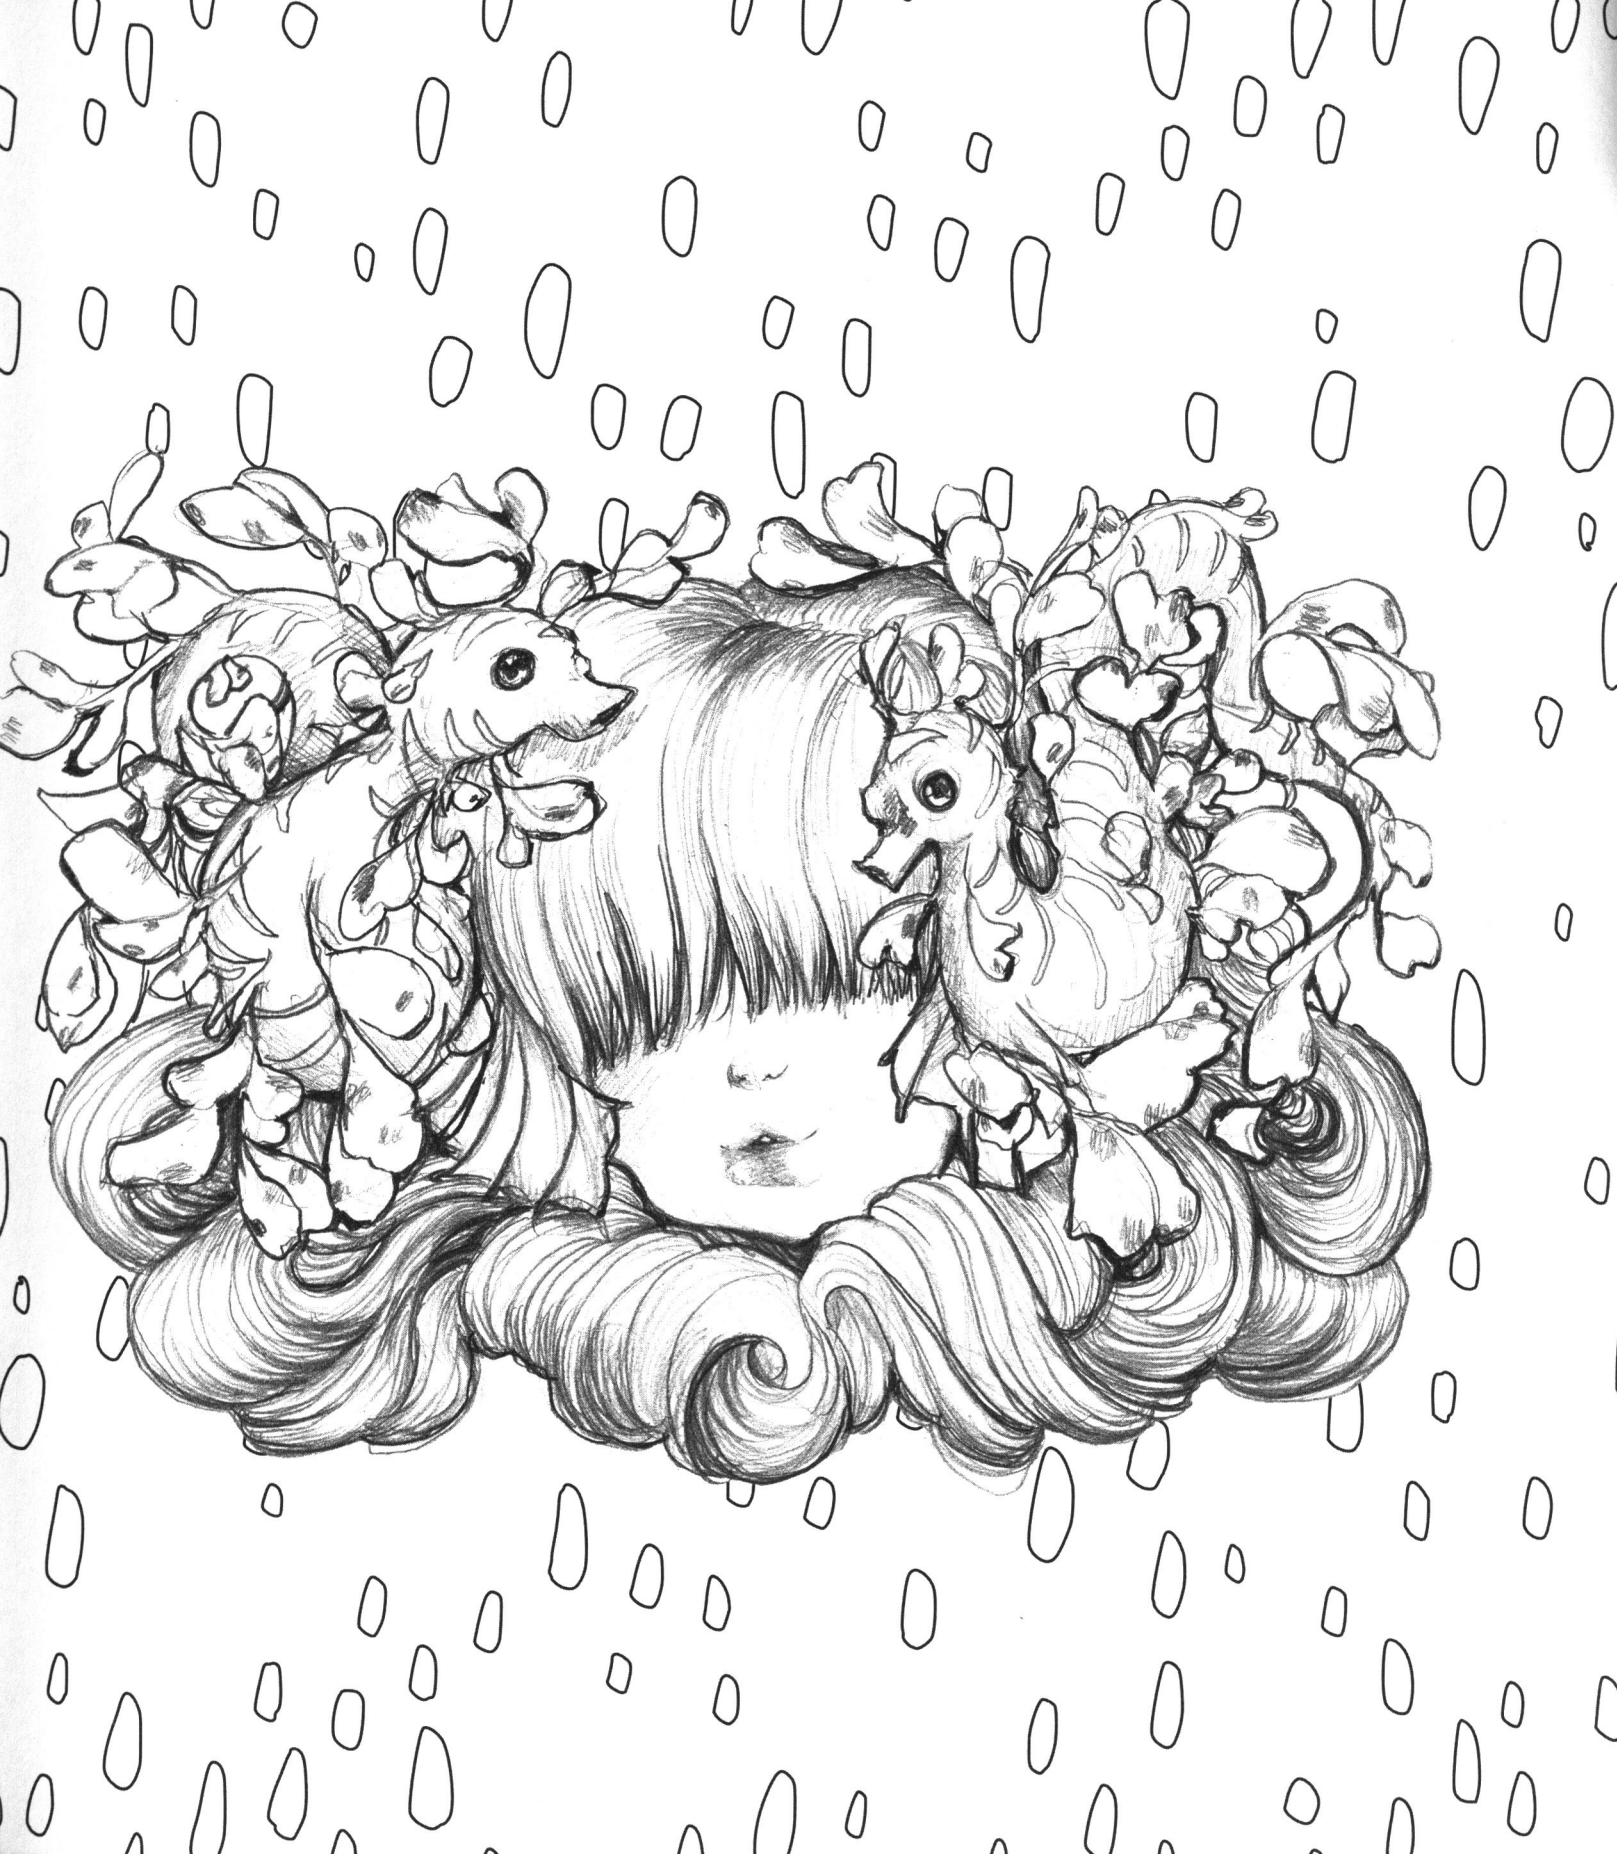

And now, so are you, so let your creativity wash over these pages like colorful waves!

Beneath these calm waters, you'll see that I've churned up a lot of new sea creatures for your coloring pleasures. It's so much fun: from reimagining beasts like the kelpie and selkies to coming up with brand-new types of mermaids. What would you call a girl that's half jellyfish? A jellymaid? A mermelly? I've even created a series of girls with wiggly and wild tentacles. My personal favorite sea animal is the octopus. So watch out, because I've let my creativity loose in those pieces! I've mixed girls with octopi in wild ways that not even Ursula herself could have imagined.

I hope you enjoy coloring in these worlds bursting with mythical creatures and characters that I've created. Fill these pages with as many colors as you want. Make your oceans pink and your fish gold! Have fun. Be wild. Be a Pop Surrealist!
